**Fall Eats! It is the perfect time of year to shop
for all of the seasonal gems Fall offers.**

Pumpkin is full of fiber and beta-carotene, which
provides it vibrant orange color. Beta-carotene converts
into vitamin A in the body, which is great for your skin
and eyes. To balance pumpkin's sweetness, try adding
savory herbs, such as sage and curry.

Okra commonly is fried, but also is wonderful in more
nutritious dishes. Around the world, chefs cherish the
thickening properties of the seed pods in dishes from
Louisiana gumbo to Indian curries and other stews. If
you wish to minimize the thickening property, try okra
briefly stir-fried. The pods are high in vitamins K and C,
a good source of fiber and folate and low in calories. At
the market, look for pods that are no longer than 4
inches and are bright green in color and firm to the
touch.

Cranberries

Fall is the time to get to know these tart berries and
their wealth of nutritional benefits. Cranberries may
help protect from urinary tract infection. They contain a
compound called proanthocyanidin which may prevent
harmful bacteria from sticking to your bladder wall.
Fresh and dried cranberries pair well with a variety of
meats and poultry. Fresh cranberries can be eaten raw
but often are cooked. Dried cranberries are delicious in
grain and vegetable salads and make a healthy snack
on the go.
